

IKELITE SINGLE CORD/ NIKONOS-STYLE #4104.6

SINGLE SYNC CORD #4104.6

Connects a single (1) Ikelite Substrobe to a Nikonos IV, V, RS camera or suitable FILM camera housing that utilizes the Nikonos-style flash socket for external strobe connection. The strobes will fire in TTL automatic or manual exposure modes using the Nikons V or RS. Strobes will only work in the manual mode with the Nikonos IV or camera housings.

Nikonos Style
Connector

ONLY IKELITE TTL SUBSTROBES CAN BE CONNECTED.

DO NOT use the TTL cord on a non TTL strobe; you will damage the camera.

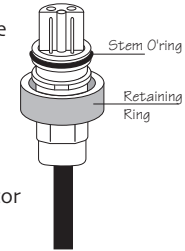

DO NOT remove the sync cord from the strobe or camera underwater or when wet. Connections are NOT waterproof when disconnected underwater.

DO NOT leave the cord connected for prolonged periods. Otherwise, the cord may freeze to the strobe or camera. After each dive, disconnect the cord and lightly lubricate the connector threads. Never use spray lubricant.

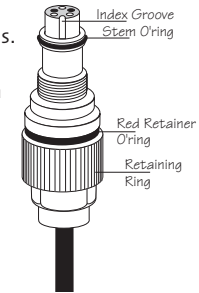

CONNECTING THE STROBE

1. Make sure all components are dry.
2. Clean and lightly lubricate the stem o-ring and the strobe connector threads. Check the o-ring for nicks or cuts.
3. Note the positioning of the receptacles and pins. Properly align the end of the sync cord and insert into the strobe connector.
4. Hand-tighten the Retaining ring on the sync cord.
5. Push the connector body further into the strobe connector and continue to tighten the Retaining ring.

CONNECTING TO THE CAMERA OR HOUSING

1. Make sure all components are dry. Clean and lightly lubricate the stem shaft, o-ring and retaining ring threads. Check the stem o-ring for nicks or cuts.
2. Align the index groove with the Indexing Pin of the flash socket, and insert the stem into the flash socket.
3. Rotate the retaining ring counter clockwise until it mates with the flash socket threads. Then carefully rotate retaining ring clockwise and thread it into the flash socket until snug.

LIMITED WARRANTY

All Ikelite products are warranted against any manufacturing defects for a period of one (1) year from the date of purchase. Defective products should be returned prepaid to Ikelite. Ikelite will, at its discretion, repair or replace such products, and will return to customer prepaid. All other claims, of any nature, including but not limited to bulb failure are not covered. Except as mentioned above, no other warranty expressed or implied, applies to this Ikelite product.
